

# TEE BALL STICKER PROGRAM

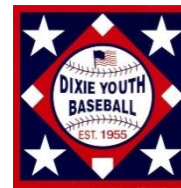

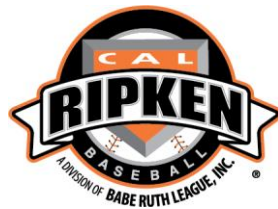

# USABat Tee Ball Standards

Beginning January 1, 2018, participating National Member Organizations will adopt the USABat standard for youth baseball and tee ball bats. Unlike standard youth baseball bats, tee ball bats (lengths 26" and shorter) are not required to undergo lab testing to receive approval under the USABat Program.

However, to be approved for play within the participating National Member Organizations, tee ball bats must feature the USA Baseball mark and accompanying permanent text which reads:  
*ONLY FOR USE WITH APPROVED TEE BALLS*

Participating National Member Organizations include:

OUR PASTIME'S FUTURE.

# USABat Tee Ball Sticker Program

Under USABat standards, USA Baseball will implement the Tee Ball Sticker Program. Through the Tee Ball Sticker Program, coaches, league administrators, and parents can order approved stickers to mark tee ball bats that were purchased prior to the implementation of the USABat standard. This program will allow for the continued use of tee ball bats that were produced prior to youth baseball's transition over to the new standard.

The following images represent the official Tee Ball Sticker and its approved placement according to USABat standards.

*Stickers will be available for purchase online via [USABaseballShop.com](http://USABaseballShop.com)  
A full list of Approved Tee Balls will be available on [USABaseball.com](http://USABaseball.com)*

OUR PASTIME'S FUTURE.
