

Benefits of Online Registration:

****What is Online Player Registration?***

The Babe Ruth Online system offers you a way for your players to register online for league play, taking the manual paperwork and data entry off your plate.

****Free of charge to your league[^]***

Online Registration is a program we offer free of charge to your league through your Babe Ruth Online website. Even though the full website is \$99.95 a year, the free features of the website include Online Registration, Rosters and ID cards.

[^] Please note that there is a per-transaction charge of 5% + \$1.

****Less paperwork for the league (no data entry)***

Parents in your league will be able to register and pay for their players electronically, adding a level of convenience for them as well as your league. With everything done online, the league has a lot less paperwork coming in to process and parents can register their son or daughter with the click of a button. It is a fast and easy process for both the league and parents with less hassle. Information from electronically registered players is placed directly in your local league database and added to your available 'pool' for the season. This cuts back on the league's manual entry of player information, and allows you to move players to Rosters or order ID Cards with the click of a mouse.

****Easy questionnaire forms***

Your registration questionnaire can be customized to conform to your league's needs. You ask the questions you need the answers to from the parents.

****Registration agreements / waivers***

You can set up a standard registration agreement for parents to agree to.

****Tickets & pricing / Sales***

You set up the registration dates as well as the cost of each registration 'ticket'. You have the ability to set different cost points for different levels of play, etc. Coupon codes can be used by the leagues as special discounts for scholarship players, multiple child discounts, family maximums, etc. Leagues can use percentages or dollar amounts to give discounts when setting up online registration which will then calculate a code for you to give out to parents of the children receiving it. You can set up multiple registration sessions in a season to allow for early registration discounts or late registration as needed.

****Secure PayPal payments****

Online Registration payments are collected securely through PayPal. Parents can pay via their personal PayPal account or via credit card. Payments are then disbursed to the league from Babe Ruth League, Inc. twice monthly.

****Easy-to-Use Reports****

Your league can access up-to-the-minute reports on the registrations you have received for the season. The Registration Report shows you a list of all your current registrants. The Registration Questionnaire Report gives you a detailed list of all questionnaire answers for each of your registrants. Both reports are available for Microsoft Excel download, so your league can sort and filter them as needed.

****Easy step by step Help Files available****

- Help Desk Representatives available @ Headquarters (9-5 Eastern) – 1 800 880 3142
- Help Files located in Online Knowledgebase
- For more information, or to submit a ticket requesting help, go to our website at www.BabeRuthLeague.org and click on the Help Desk icon in the upper right

****How to get started****

To get started with Online Registration, go to your league's website and log in to your league admin tools now. In the center column, you will find the Online Registration heading, and a box containing all of the related links.

If you do not know your league's website address, or need help logging in or getting started, do not hesitate to contact our Help Desk at bronzinesupport@baberruthleague.org. A full directory of leagues with Babe Ruth Online sites can be found in the Babe Ruth Online Directory as well.
